Main image: Basic Law Enforcement Training is a six-month program at Surry Community College that prepares students to take the state law enforcement exam. A majority of the sheriff’s deputies and city police officers in the region received training at SCC with hundreds of officers having gone through the program since its inception in 1974. Top inset: Paramedic students at SCC complete a one-year program combining classroom and clinical work before taking the state exam to become certified medics. Bottom inset: The college’s Fire and Rescue Program features realistic training in a wide variety of state certification courses.

The mission of Surry Community College is to promote personal growth and community development to a diverse population through excellence in teaching, learning, and service.

Creating Success is published three times a year by Surry Community College, 630 S. Main Street, Dobson, NC 27017. 73,000 copies of this public document were printed at $0.18 per copy.
Law Enforcement: Exciting Career In Helping Others

Ron Hill, BLET Program Director

A majority of the sheriff’s deputies and city police officers in the region received Basic Law Enforcement Training (BLET) at Surry Community College with hundreds of officers having gone through the program since its inception in 1974. The reasons people go into law enforcement are similar – a desire to serve their communities through a career that is meaningful, exhilarating and stimulating.

“My interest is in helping people,” said Ron Hill from his office at the Center for Public Safety in Mount Airy. “Law enforcement is exciting. Stressful. You either love it or hate it. The shifts are terrible, but the rewards far outweigh the negatives.”

Hill came through Surry’s BLET program as a deputy sheriff in 1975, and now serves as director of the program. He has almost 40 years of law enforcement experience under his belt having retired as chief of the Mount Airy Police Department in 2007 when he started teaching part-time for the BLET program.

“Training has always been a passion of mine,” Hill said. “The number one rule in law enforcement is to make sure you go home tonight. I had the greatest reward when an officer called me and told me that he had reverted back to training when he was in a life-threatening situation. He could hear my voice in the background telling him to keep the other officer covered. It saved his life and the other officer.”

Law enforcement officers say that their chosen line of work is not just a career, but also a lifetime commitment. “I tell officers to honor the badge they are about to receive at graduation. People have died for it. Don’t soil it. It’s your reputation. The badge is heavy, not with power, but responsibility.”

Hill worked with Angela Key, also a Surry BLET graduate, at the MAPD. Key remembers working in the payroll department at a local business when she realized her career path just wasn’t what she wanted to be doing.

“I didn’t like being contained inside the office all day. I talked to a cousin who was in law enforcement, and he told me about the things he was doing with his job. I was taking computer programing classes at the time, so I switched my classes to Criminal Justice. Law enforcement just kind of clicked and came natural, and it sounded exciting.”

After finishing an associate degree in Criminal Justice from SCC, Key went through the GOAL program at Gardner-Webb University and earned a bachelor’s degree in Criminal Justice.

She graduated from Surry’s BLET program in 2000 and joined the Mount Airy Police Department in patrol where she enjoyed working the road. However, she had a desire to do more investigative work.

On the very first night of putting on her uniform, the MAPD had a homicide on their hands. “I remember thinking what have I gotten myself into, but I learned that you can’t dwell on these situations. You just have to deal with it since it’s a part of the job.”

Key recently finished her master’s degree in Justice Administration through Methodist University. As a special agent with the State Bureau of Investigation, she is assigned to the arson program, covering 13 counties in North Carolina. She has been with the SBI since 2003.

“I also investigate any type of crime scene, and I just joined the bomb squad,” Key said. “The best part of my job is solving cases. It makes you feel like you’ve done something good. I especially enjoy solving cold cases, and I work a lot of homicides. It’s fun and interesting to work cases to find out what happened. It’s also a challenge. With my job, it’s something new every day. You never know what people are going to do. I’ve seen some crazy stuff. It’s pretty exciting.”

As a BLET instructor at SCC, she teaches criminal investigation as the lead instructor along with domestic violence training, patrol techniques and interview skills. She also teaches two online classes for SCC’s Criminal Justice program – introduction to criminal justice and constitutional law.
Basic Law Enforcement Training (BLET) is a 670-hour course accredited by the NC Criminal Justice Training and Standards Commission. Tuition can be waived through a law enforcement agency sponsorship or paid personally.

For an interview appointment and application packet call: Ron Hill (336) 386-3292 or James McHone (336) 386-3696

Lt. Paul Barker of MAPD

“I tell all my students that education is so important. It will help you get promoted and receive more pay. At the SBI, you have to have a four-year degree. If you are willing to do the work to get more education, it will only help you in the long run,” Key said. “Additional class work gives students an idea of what to expect and opens their eyes to different perspectives and more opportunities. Police work is not just riding around in the police car. You help people, but there’s more to it. Law enforcement is like a puzzle. You have to understand constitutional law and think on your feet.”

Paul Barker also started his career in a different industry and made a career change to law enforcement.

Barker began doing construction work after graduating from high school. “While on a job site one day, I felt like my life needed to go into a different direction. I always had an interest in law enforcement, and I had friends in law enforcement who were enjoying their careers,” he said.

After completing an associate degree at SCC in 1992, he entered the BLET program. “I really enjoyed the program. It was an eye opener to me,” he said. “I learned different viewpoints and life experiences from the students in my class and the instructors. It was a time to mature and learn, and it set the groundwork for my career in law enforcement. Surry’s BLET program has excellent instructors from different law enforcement agencies that have a wealth of information to share.”

Barker graduated from Surry’s BLET program in 1992 and was hired in 1993 as a patrol officer. He has been the lieutenant of the Criminal Investigation Division at the Mount Airy Police Department since January 2010.

“I enjoy talking with people. I like problem solving and interviewing people. I enjoy the cat and mouse game. The who-done-it aspect of our job is really appealing to me,” he said.

Trustworthiness, integrity, discipline and caring are some of the top characteristics needed for law enforcement officers, according to Barker.

“You have to have the heart and interest for it,” he said. “People also look at you differently when you go into law enforcement, so it’s important to act in a professional manner at all times.”

Barker recommends anyone considering a career in law enforcement to seek out seasoned professionals and ask questions.

BLET is a six-month program that prepares students to take the state law enforcement exam. The North Carolina State Highway Patrol also offers an accelerated program for BLET graduates.

Law enforcement officers are in high demand with state and regional agencies currently recruiting.

For more information, contact Ron Hill at (336) 386-3292 or James McHone (336) 386-3696. For program updates, go to facebook.com/surryblet.
Paramedic’s Life: Full of High Stress and Rewards

Samantha Wyre and Paul Balthis have proved that it’s never too late to change careers or to advance in your own career when you are dedicated and motivated. You can do it as a single mother who is working, and you can take a total turn in your career at any age.

Wyre distinctly remembers the day her stepfather passed away from cardiac arrest in their Delaware home. She was 16.

“I wanted to know what was happening and didn’t want to feel helpless,” Wyre said. “I wasn’t able to save him, but I have been able to help other people.”

Wyre graduated from the Surry Community College Paramedic Program in December 2013. She now works for Surry County Emergency Medical Services full-time as a medic at the age of 26. Making the decision to go back to school involved a lot of thought since Wyre had to juggle schedules and sacrifice family time for study time. She also wanted to be an inspiration for her daughter, Kali, who is now 3.

“I am a single mom, so making a decision to go back to school was a tough one. While I was in the paramedic program, I worked at Surry EMS as a Basic EMT. My schedule was challenging with work, school and my daughter,” she said. “Once I started in the program, it felt like a family with the instructors and classmates. I didn’t feel like a number. Surry Community College has a hometown feel that you don’t get with bigger colleges. They understood the issues that came up involving my little girl and worked with me.”

The graduating class of 2013 of which Wyre was a member was affectionately nicknamed the Dirty Dozen.

“We were an eclectic group of people, but we grew and learned together and passed trials. We learned to lean on each other,” Wyre said. “We have a bond that cannot be broken, and life-long friendships were made. I felt like I had that college family experience.”

The quality of instruction is a huge benefit for Surry paramedic students.

“The instructors are good role models with solid backgrounds,” Wyre said. “They share real life stories based on their own experiences. They look out for you and care about you. They are such a good support system. That’s what kept me going because it’s a hard program some days.”

Wyre’s parents being first responders also set the stage for her to enter the emergency medical field. She graduated from high school as a certified medical assistant.

“I didn’t like being a medical assistant because I was in a confined space doing repetitive work,” she said. “I like variety and the unexpected. I like constant change. I was just made to be on the go. It’s cool to always be on your toes and know your stuff and be ready for the next situation.”

Wyre completed the EMT Basic certification at Surry in 2009 when she was 21.

“With the EMT Basic, I worked more with convalescence. I dealt mostly with geriatric patients, and I have grown to love them. That generation is something special. They would share war stories or garden tips, and I would get to know patients since these were not critical situations. We transported them to doctor’s appointments.”

As a paramedic doing advanced life support, Wyre says she is making a difference in people’s lives in a lot of ways.

“I can now determine the situation of someone’s condition and give the doctor the symptoms, and knowing that I know what is going on is personally one of the best feelings of accomplishment that I can get, along with being there for those patients and being the calm in the storm for those families. Sometimes a paramedic’s role goes from being a caregiver of the patient to the caregiver of the families of a sick or deceased loved one. There are so many ways I get blessed every day.”

After 27 years in retail management, Paul Balthis decided that he wanted a career change. He was in the same graduating class as Wyre.

“I wanted to do something more important and more meaningful,” Balthis said. “I made good money in retail, much better money than EMS. However, I didn’t get any self-satisfaction from my work in retail.”

Balthis’ father worked in retail, and his mother was a nurse anesthetist. “I should...
have done EMS from day one. I like it a lot better than retail, which is profit-driven. I am not here for the money. With EMS, you are finding somebody in need. It might be minor, but to them it’s a big deal. You are there in the crises of their lives. They appreciate you being there and coming out to help them. It just makes you feel good that you are able to help someone especially if it’s serious and you are able to turn that around for them.”

Balthis entered the Basic EMT program at Surry when he was 46 years old. At 48, he became a paramedic for Surry County EMS and Yadkin County EMS.

“I was much older than everybody else, but I didn’t let it deter me,” he said. “I always made good grades in the class. I would recommend this program to anybody. It’s an exciting career. You just never know what you are going to get in a day’s work. My biggest struggle was in my head because I was taking a total 180-degree turn in my career. I wondered if I was going to be able to get a job once I got out. I scored well on the state exam to get certified and that’s because of my work at Surry Community College.”

Balthis recommends aspiring paramedics to volunteer at local agencies. He started serving at the Westfield Volunteer Fire Department after he got the EMT Basic certification.

“It gave me an inside scoop seeing paramedics in action,” he said. “Anything can happen on any call. That keeps the excitement in you. You never know what it’s going to be like when you get there. It’s a little worrisome at times, but it’s fun.”

Surry Community College’s Paramedic Program has earned a 100-percent pass rate for the state certification exam for the past seven consecutive classes since 2007. “We are committed to a quality program. We hold our students to high standards, and we test hard in the classroom. There’s an immense level of accountability in the course,” said Kirk Killon, Division Chair of the Center for Public Safety. “It’s a serious business. These are people’s lives that we are talking about.”

Surry’s graduates work at different areas around the region in Surry, Forsyth, Stokes, Wilkes and Yadkin counties.

“Emergency medical personnel are people who have a strong desire to help their fellow man. They have to be self-sacrificing because they have to spend a lot of time away from family and normal pursuits. They are committing to long hours and a high stress environment,” Killon said. “These are people who are committed and driven to success. They are not doing it for the money. It is a career and a profession – it is also a calling. Not everyone can do this job. It takes a person who has the ability to work in the most stressful environments possible yet remain professional and keep a positive outlook. They are a cross between an adrenaline junkie and a public servant.”

For more information about Surry’s Paramedic Program, contact Kirk Killon at (336) 386-3234 or killonk@surry.edu. For more information, go to facebook.com/surryems.

Realistic Training Arms Rescuers With Skills

Real-life scenarios make Surry Community College’s Fire & Rescue courses representative of emergency situations that rescuers could someday face.

“We strive to make the training as factual and realistic as possible so that the students can carry back what they learn and put it into use at their organizations,” said Ian Harrell, who is the Director of the Fire & Rescue Programs at Surry. “We try to do predominantly scenario-based training, which prepares the students for real world incidents that they are likely to encounter when doing emergency response. We are unique in our method of delivery for the training.”

The instructors generate scenarios that involve different practicals. The Office of the State Fire Marshal produces lesson plans, tests and courses, but the classroom and site training make Surry Community College unique.

“I go through the whole story line and incorporate the scenarios as much as I can because it gives the students a more realistic atmosphere for learning. It’s also a more exciting learning environment. They get to see the whole picture of a story like gears on a cog.”

Students can obtain entire emergency services certifications through SCC or keep up with annually required certifications. The college offers training related to fire suppression, fire prevention, technical rescue, and hazardous materials. These courses enable members of emergency response agencies to obtain and maintain certifications in the different disciplines.

The training takes place at Surry’s Dobson Training Center or through organizations in Surry and Yadkin counties.

“As far as I know we are the only training facility that has a radio tower dedicated solely to training statewide,” Harrell said. “When people decide to build a training center in the area, they always want pictures or want to come and look at Surry’s facility. We also have a burn building, propane props and a dust bin. Our wilderness search and ropes rescue classes take place in Pilot Mountain State Park, and we access the Yadkin River in Yadkin County for water rescue training. The natural resources we have in our area are greatly beneficial to our real-life training scenarios along with our props on campus.”

Jimmy Ashburn is an inspector with the Surry County Fire Marshal’s Office. Ashburn has taken certification courses at Surry. As an instructor and student of the SCC Fire and Rescue courses, Ashburn gets both sides of the spectrum. He likes passing down training skills to the younger generations.

“The last 23 years with fire service has been wonderful here in the county, and Surry Community College has helped me obtain all the certifications and qualifications to maintain the job I have today,” he said.

Ashburn also volunteers as a chief officer of the Franklin Community Volunteer Fire Department.

“I do it basically to serve the citizens and help the community in a time of need,” Ashburn said. “If you have a family life, you have to juggle family time with your commitment in a volunteer setting. You are doing something for nothing, but you are getting something out of it by helping someone – that is a big accomplishment.”

He recalled a time when he and fellow volunteer fireman, Dennis Thomas, went to a scene where a truck had overturned down a bank off Red Brush Road in Surry County.

“This young boy, about 18 or 19, was swimming around inside the truck cab, which was submerged in a river.
Surry Community College offers a variety of Firefighting, Rescue and Hazardous Materials classes both on campus and through organizations in Surry and Yadkin counties.

- Certified Firefighter
- Certified Driver Operator
- Fire Life Safety Educator Certification
- Fire Officer Certification
- Hazardous Materials Certification
- Technical Rescuer Certification
- Confined Space Certification
- Rope Rescuer Certification
- Structural Collapse Certification
- Wilderness Search Certification
- Plus additional certifications available

Updates at facebook.com/surryfireandrescue

Ian Harrell, Director of the Fire & Rescue Programs at SCC

He was just looking for somewhere to breathe. We freed him from the truck window, and he came up out of the water. He was hugging both of us saying thank you. We were there on top of that call, and it saved his life. He only had seconds left.”

Surry Community College, along with Wilkes Community College, annually plays host to the North Carolina Association of Rescue and E.M.S. High Angle Rescue School that will be held Nov. 7-9. SCC will also host the N.C. Association of Rescue and E.M.S.’s Graduate Mountain Rescue courses in the spring. These courses will take place at locations in Surry or Yadkin counties along with several certification classes being held at one of the Surry Community College learning centers.

The college also works directly with volunteer fire departments and rescue squads to offer needed certification classes. These groups come together for training, and a side benefit is the networking across agencies and members that occurs.

SCC is at the forefront of fire and rescue training in the state. Harrell serves on the North Carolina Community College System Fire and Rescue Advisory Committee, which is comprised of college directors who assist in identifying and making recommendations for solutions on issues of mutual concern related to fire and rescue training in the community college system.

Harrell began his work at SCC as a fire, rescue and hazardous materials instructor in 1999. He was a firefighter with the City of Mount Airy from 2005 to 2011 and holds a bachelor’s degree in Fire Science from Fayetteville State University.

If you would like to learn more about Surry’s Fire & Rescue courses, please contact Harrell at (336) 386-3403 or harrelli@surry.edu. You can also find information about upcoming classes by going to surry.edu/fire or facebook.com/surryfireandrescue.

The Fire and Rescue Program at Surry offers a variety of specialized courses including Agricultural Rescue, which presents the elements that come into play at agricultural machinery rescue incidents.

Pre-registration and pre-payment required. You may register on-line or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3229 for more information.

**Vet Assisting I**
If you would like to learn to care for your pets or if you are interested in working as an assistant in a veterinarian’s office, our animal care classes will prepare you. In Vet Assisting I, you will have hands-on experience in the skills needed to assist with an animal’s physical examination. You will also learn about animal anatomy and physiology, animal diseases, record keeping, the law, and other topics.

Cost: $127
February 2 – May 11, M, 6pm-9pm
Location: SCC-K117

---

**ARTS & CRAFTS**

**Pre-registration and pre-payment required. You may register on-line or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3229 for more information.**

**Barn Quilts**
Quilts, always a beloved symbol of comfort, family, heritage and community, have taken a new twist! A barn quilt will provide wonderful visual art for your barn or building. Traditional quilt patterns will be painted on pre-built wooden squares. All materials will be supplied for this class. Class size limited to six students.

Note: Pre-registration and pre-payment required at least 2 weeks in advance.

Cost: $125 2’x2’, $200 3’x3’, or $225 4’x4’
January 17, Sat, 9am-4pm
Location: Yadkin Center
February 21, Sat, 9am-4pm
Location: Pilot Center
March 21, Sat, 9am-4pm
Location: Elkin Center
April 11, Sat, 9am-4pm
Location: SCC Campus, Dobson
May 16, Sat, 9am-4pm
Location: Yadkin Center

---

**Jelly Roll Quilting**
Want to learn to quilt, but not sure how to start? Intimidated by picking the “right” colors, not sure if you can cut and sew those small squares and triangles? Want to be able to finish your project quickly? Then sign up for the Jelly Roll Quilt class.

Cost: $69 / Supplies are an additional cost to the student and may vary in cost depending on quilt size ($75 and up).
January 26 – March 30, M, 6pm-9pm
Location: Elkin Center, 105

**CARPENTER’S STAR QUILT**
Join us to make a beautiful keepsake quilt using the stunning Carpenter’s Star pattern. This quilt is beginner friendly and will use the half square triangle technique (no “Y” seams). The squares, blocks or units for this quilt will vary in size depending on the size quilt you want. The border is made with 4 strips of fabric. The instructor will teach various methods for finishing your corners.

Cost: $69 / Supplies are an additional cost to the student and may vary in cost depending on quilt size ($50 & up).
January 29 – April 2, Th, 6pm-9pm
Location: Elkin Center, 105

**T-Shirt Quilt**
Create a memory quilt with your favorite T-shirts. You will complete 4 shirts in class, but you can add more T-shirts after class to make your quilt larger. You will learn to stabilize the T-shirt material, add sashing, and add batting and backing. You will also learn how to bind to finish the edges of your quilt.

Cost: $45 / Price includes stabilizer material for 4 shirts. Other supplies are an additional cost to the student. Please ask for a supply list.
April 25, Saturday, 9am-4pm
Location: Elkin Center, 105

COLLEGE & CAREER READINESS

For more information, please contact Jennifer Pardue at (336) 386-3674.

You must be at least 16 years old to enroll in one of our College and Career Readiness programs. If you are under 18 years old, we require a Surry Community College student release form which is available online at www.surry.edu, from our Corporate and Continuing Education office in Dobson or at our other four learning centers: Elkin Center in Elkin, Jones Family Resource Center in Mount Airy, Pilot Center in Pilot Mountain and Yadkin Center in Yadkinville.

Adult Basic Education (ABE)
Adult Basic Education is a program of instruction designed for adults who need to improve their reading, writing, speaking, problem solving or computation skills to function more effectively in society, on a job or in the family. Classes are offered at our learning centers in Dobson, Elkin, Mount Airy, Pilot Center in Pilot Mountain and Yadkin Center in Yadkinville.

We also offer ABE classes designed specifically for adults with developmental disabilities and traumatic brain injury. The focus of these classes is to improve the individual’s independence by acquiring necessary basic life skills including math and reading skills to job development. Students also gain appropriate communication and socialization skills as well as full access to a computer lab. Classes are offered at LIFESPAN in Dobson and New Horizons Adult Day Services in Yadkinville. Books, materials and instruction are provided free of charge.

High School Equivalency (HSE)
The HSE test will be computer based only, but paper testing will be available as an accommodation. The test will have four content areas:

1. Reasoning through Language Arts (150 minutes)
2. Mathematical Reasoning (115 minutes)
3. Science (90 minutes)
4. Social Studies (90 minutes)

The test is offered in English and Spanish. Students have three opportunities to test per year, per content area. The test requires student knowledge of basic computer skills, which is part of our HSE curriculum. The cost to students is $20 per test for a total of $80 for the entire series. When you pay for one test, you get two retakes at no charge. After the third attempt to pass a test, you must wait 60 days before you can take the test again. Upon attaining minimum standard scores of 150 on each of the four tests and a total of 600, a High School Equivalency diploma is awarded to the student by the State Board of the Community College System. Books, materials and instruction are provided free of charge.

ABE/HSE Orientation
There is a mandatory two-day (three hours each) orientation required for new ABE/HSE students and students returning after six months. Students must bring a picture identification such as a driver’s license/permit or government issued photo and a social security card to orientation. Please call one of the five learning centers to register for orientation:

• Campus (336) 386-3455
• Elkin Center (336) 386-3604
• Jones Family Resource Center (336) 786-1071
• Pilot Center (336) 386-3618
• Yadkin Center (336) 679-4600 ext. 3594

ABE/HSE Registration
Registration for all ABE/HSE class sites will be held for continuing students and students who have attended class within the last six months during normal operating hours on the following dates:

Spring Semester:
January 5 through January 8, 2014
March 16 through March 19, 2014 during each center’s normal operating hours

HSE Online
For more information, contact Jennifer Pardue (336) 386-3674.

This course will help you prepare for the High School Equivalency test in the comfort of your own home or anywhere you have Internet access. Complete HSE orientation with a fifth grade level in Reading (determined by your TABE reading score) and you will be considered a candidate for the HSE Online class. You will be required to attend a one hour orientation session at your preferred HSE center (Elkin Center, Jones Family Resource Center, Pilot Center, SCC or Yadkin Center).

English as Second Language
For more information, please contact Rosa Torres at (336) 386-3660.

The ESL program provides a means for speakers of other languages to attend classes to learn English communication skills as well as American customs and history.

Computer Classes
For more information call, Susan Ratcliff at (336) 386-3309 or ratcliffs@surry.edu.

Corporate and Continuing Education offers computer classes appropriate for the beginning student with minimal skills or students wishing to expand their knowledge. Classes are available for those seeking workplace related skills including Microsoft Office programs. Classes suitable for Microsoft Certifications are also available. Classes for seniors and beginning level students desiring basic computer and Internet skills are also being offered. Some classes are available at no cost. The following is a sampling of classes offered.
Do you need assistance with educational costs? Are you employed or unemployed in Surry or Yadkin County? Have you, your family or your community ever been affected by the decline in the tobacco industry?

Project Skill-UP Provides:

- Skill Assessments
- Tuition Assistance
- Short-Term Occupational Training
- Career Development Counseling

Call Greg Smith at (336) 386-3331 or smithg@surry.edu to learn more.

How to Use a Computer for Seniors
This class is designed to be hands on and user friendly for senior citizens. Topics taught in this class vary and each session will include topics like computer basics, how to copy and paste, using spreadsheets, and Internet skills. Students will be shown how to use the computer for things like their daily planner, address book, calendar, notepad, files, folders, papers and more. You will be shown how to use your computer to watch videos, listen to music, organize your photographs, send mail, etc. The goal of this course is to show you how to do all of this with the least amount of strain and frustration. This course will start with basic computer exercises that allow you to practice what you’ve learned. Handouts will be provided to each student.

Cost: $127

January 12 – March 4, MW
9am–12pm, 1pm-4pm
Location: Center for Public Safety, 114

January 12 – March 4, MW
9am–12pm, 1pm-4pm

Emergency Medical Technician - Basic (EMT-B)
The Emergency Medical Technician-Basic course establishes the basic knowledge needed to provide, under medical authority, pre-hospital emergency care and to pass the NC State and/or National Registry certification exam. Students will acquire basic life support knowledge through a combination of classroom instruction, practical laboratory exercises and clinical experience in hospitals. Students will receive a thorough understanding of criminal, civil and vehicle laws pertaining to the EMT services; develop understanding and knowledge of human anatomy and physiology; deal calmly and efficiently with childbirth, injuries, poisonings and other medical emergencies such as heart disorders, strokes and diabetes; and in general be able to provide basic life support for seriously/critically ill patients.

This course follows the guidelines established by the NC Office of EMS. The curriculum for the EMT-B educational program shall be the National EMS Education Standards including the 1994 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) EMT-Basic Course: National Standard Curriculum along with the Supplemental Airway Modules for EMT-Basic: NSC.

Student prerequisites:
• High school diploma or High School Equivalency diploma
• Successful completion of the TABE assessment exam for basic reading comprehension skills. This testing will be assessed during the orientation period of the first class meeting.

Total hours: 190 - 208

Cost: $180 (Tuition waived for members of approved NC Lifesaving Organizations.)

January 6 – June 16, TTh, 6pm-10pm
Location: CPS Mount Airy, 122

Emergency Medical Technician - Paramedic Initial - EMS 3031
This course is designed to develop knowledge and skills for the Advanced Emergency care of ill or injured persons. This course is approved by the North Carolina Office of Emergency Medical Services. Lecture, demonstrations, skills evaluation, and both hospital and field internships are the principal methods of instruction. Specific training areas include administration of I.V. fluids, advanced airway management, cardiac monitoring including Defibrillation, Cardioversion, Cardiac Pacing, and the administration of pre-hospital advanced life support medications. This course will follow the guidelines established by the NC Office EMS. The curriculum for the EMT-Paramedic educational program shall be the National EMS Educational Standards and the National EMS Scope of Practice Model including the 1998 Release of the United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) EMT-Paramedic Course: National Standard Curriculum.

Student prerequisites:
• Successful completion of an EMT-Basic course
• High school diploma or High School Equivalency diploma
• Successful completion of an entrance exam assessing basic reading comprehension and English skills at a minimum of a post-secondary grade level; demonstration of math skills at a minimum at the high school grade level. (This testing will be assessed during the orientation period of the first class meeting.)
• Prerequisite course: EMS 3000 - Anatomy and Physiology or equivalent

Approximate hours: 596 didactic; 250 clinical; 350 field internship.

Cost: $180 (Tuition waived for members of approved NC Lifesaving Organizations.)

January 7 – March 2, MW, 10am-5pm
Location: CPS Mount Airy, 122

Anatomy and Physiology for the EMS Provider – EMS 3000
This course is designed specifically for the EMS provider and fulfills the anatomy and physiology prerequisite for acceptance into the certificate paramedic program. The course provides a basic study of the structure and function of the human body. Topics include a study of body systems, as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology.

Cost: $180 (Tuition waived for members of approved NC Lifesaving Organizations.)

March 10, 2015 – March 31, 2016
TTh, 10am-5pm
Location: CPS Mount Airy, 122

MANUFACTURING TRADES

Pre-registration and pre-payment required. You may register on-line or use the form in this brochure to mail, walk-in, or fax your registration and payment. Call (336) 386-3229 for more information.

Certified Production Technician
The purpose of the Certified Production Technician (CPT) program is to recognize, through certification, individuals who demonstrate mastery of the core competencies of manufacturing production at the front-line (entry-level to front-line supervisor) through successful completion of the certification assessments. The goal of the CPT certification program is to raise the level of performance of production workers both to assist the individuals in finding higher-wage jobs and to help employers ensure their workforce increases the company’s productivity and competitiveness. The Manufacturing Skill Standards Council (MSSC) credentialing system, leading to a nationally recognized CPT credential, covers the four critical production functions: safety, quality and continuous improvement, manufacturing processes and production, and maintenance awareness.
CFC Freon Certification
This 12-hour course is designed to be a training course for HVAC technical personnel to assist in meeting EPA-mandated requirements related to Air Quality Standards. It will prepare students for the CFC Freon Certification examination, which will be given on the last day of class. Cost: $71

April 27 – May 6, MW, 6pm-9pm
Location: SCC, K115

Nurse Aide I
This course prepares the student to provide personal care and perform basic nursing skills for the elderly and other adults. Students may seek employment in a variety of healthcare settings. Upon successful completion of the CNA I course and the certification exam, the student will be listed on the North Carolina Division of Health Service Regulation Nurse Aide I Registry. Current cost for the certification exam is $101. This is a 188-hour course.

Note: Registration is currently open for all students. Payment is due upon registration. New students must register in person by coming to J-120 (Corporate and Continuing Education Office on SCC Dobson campus). Current or returning students may register on line by going to www.surry.edu. Call (336) 386-3423 for more information.

Cost: $183 plus $53* for urine drug screening and criminal background check. Virginia students will have an additional $10 fee for this service. *$16 for malpractice insurance

Prerequisites: High school diploma or High School Equivalency diploma, current American Heart Association Healthcare Provider CPR, and a current North Carolina Nurse Aide I.

Note: Proof (copies) of the above prerequisites will be required on the first day of class.

Cost: $183 plus $53* for urine drug screening and criminal background check. Virginia students will have an additional $10 fee. Total $226. $16* malpractice insurance fee due on the first day of class.

Fees are subject to change.

5:30pm-9:45pm
Saturday Dates (8am – 3pm)
2/7, 2/21, 3/21, 4/25, 5/16, 5/30
Location: SCC, J211

February 5 – June 15, TTh, 8am-3pm
Location: SCC, J211

Phlebotomy I (Hybrid)
This course prepares the student to work in hospitals, physician offices, as well as privately owned laboratories. The course is in two parts. The first part is 96 hours of didactic and lab. The second part (Phlebotomy II) is 100 hours of clinical. The student will be given a designated clinical site and will perform learned skills while under the supervision of a preceptor.

Prerequisites: High school diploma or GED, CNA I and II, or proof of one of the following: comparable credentials such as CMA, EMT-I, RN, or LPN, or documented previous experience working as a phlebotomist or experience performing venipunctures. Please bring proof of prerequisites when registering.

Note: Upon successful completion of both parts the student will be prepared to sit for their national certification exam. The cost of this exam is $135.

Cost: $183 plus $69 for urine drug screening and criminal background check. Virginia students will have an additional $10 fee. $16* malpractice insurance fee due on the first day of class. Total $252.

Fees are subject to change.

January 27 – April 23, TTh, 6pm-10pm
Location: SCC, J211
Pharmacy Technician
This course prepares students to work under the supervision of a pharmacist in a hospital or retail pharmacy. Topics covered include drug classification, drug distribution, anatomy and physiology in relationship to disease with an emphasis on drug therapy, and laws and regulations basic to pharmacy practice.

NOTE: Students who complete this course successfully may sit for a national certification exam through Pharmacy Technician Certification Board (PTCB). This is a 96-hour course. Pre-registration and pre-payment required.

Prerequisite: High school diploma or High School Equivalency diploma required for the certification exam.

Cost: $183

February 16 – May 13, MW, 5:30pm-9:30pm
Location: SCC, J201

Medical Coding and Billing (Hybrid)
This course prepares an individual for entry-level healthcare billing and coding positions. Course topics can include, but are not limited to, the roles and responsibilities of the position, managed health care, life cycle of an insurance claim, legal and regulatory considerations, coding regulations, reimbursement issues, claims instructions, medical terminology, filing commercial claims, insurance plans, Medicare, Medicaid, Tricare, and Workers’ Compensation. New ICD 10 coding will be included in this course. Upon completion, students should also be able to utilize MS Windows and the Internet to effectively retrieve billing-related information and updates. This is a 156-hour course. Students may seek certification in coding after taking this course.

Note: Medical Terminology is strongly recommended for this course. Good computer skills are a MUST. A limited number of seats are available for this class.

Cost: $183

January 14 – June 8, MW, 6pm-10pm
Location: SCC, J107

NC Motorcycle Safety Program’s Basic Rider Course
The basic course teaches the skills necessary to operate a motorcycle in traffic. This course consists of both classroom and driving range activities. Motorcycles are provided for the course. Each site has a limited supply of helmets in various sizes. If possible, bring your own helmet to the riding portion of the course. The course consists of 22 hours of training.

NOTE: The Friday evening classroom session is conducted in J114 on the SCC Dobson campus. The remainder of the course is conducted at the Emergency Services Training Center behind the Baseball Field off Comer Blvd. in Dobson.

Cost: $160 (price subject to change)

Yoga
Tired muscles? Low energy? Yoga is a way to relax, stretch, and rejuvenate! Bring your yoga mat and spend an hour on yourself!

Cost: $59
January 5 – May 11, M, 5:30pm-6:30pm
January 5 – May 11, M, 6:40pm-7:40pm
Location: SCC Dobson, J115

Sports and Vacation Photography
We will introduce you to the basic core techniques and skills for photographing sports indoors and outdoors during this class. We will attend a couple of local sporting events and practice these techniques. We will also do a photo safari of the many interesting places in Mount Airy as a vacation location — all as weather permits.

Prerequisite: DSLR Cameras Class or working knowledge of DSLR manual settings
Cost: $39
March 30 – April 20, M, 6pm-8pm
Location: Pilot Center

Wedding/Outdoor Bridal Photography
During this class we will introduce you to the basic core techniques and skills for wedding photography. We will visit local sites of a church, a venue for weddings and outdoor locations. We will have model(s) to work with at these locations — all as weather permits.

Prerequisite: DSLR Cameras Class or working knowledge of DSLR manual settings
Cost: $39
April 27 – May 18, M, 6pm-8pm
Location: Pilot Center

Intro to Photographic Photoshop 1
We will learn the basic core techniques and skills for a photographer using Adobe Photoshop CS6 Creative Suite software — setting up your workspace, how to load tools, actions, presents and brushes for maximum productivity; learning to use layers, image enhancement and retouching, color cast removal; corrections, brushes and tools; and much more.

Cost: $39
January 13 – February 3, T, 6pm-8pm
Location: SCC, E144

Intro to Photographic Photoshop 2
Using Adobe Photoshop CS6 Creative Suite software, students will begin the process of analyzing a print/image to not only determine how to improve it, but also to develop the steps to proceed without changing the original file and the most efficient steps to complete the process. Instruction will include soft focus and sharpening techniques, to minimize lines on older faces (history magic); amazing tricks to make head swaps easy; eye enhancements for beautiful eyes; slimming and trimming extra pounds, rolls, bulges and jowls; and the finishing touch for portraits including dramatizing techniques or the soft touch; removing or neutralizing sunburn; liquefy and much more.

Cost: $39
February 17 – March 10, T, 6pm-8pm
Location: SCC, E144

Pre-registration and pre-payment required. You may register on-line or use the form in this brochure to mail, walk-in, or fax your registration and payment.
Call (336) 386-3229 for more information.

Guitar
Do you want to learn to play the guitar, or do you already play the guitar but want to become a better player? SCC and Dominic McManus are offering private, 30-minute lessons on campus in Dobson and the Pilot Center. These 30-minute lessons will be 100% catered to your style and needs: Country, Blues, Bluegrass, Jazz, Pop, Rock, or Oldies. Learn to play solos, sing and play at the same time, or train your ear to learn songs on your own. The possibilities are limitless! All lessons will be taught on an acoustic guitar. Dominic McManus is a professional touring Nashville musician who has toured with Reba McEntire, Blake Shelton, Steel Magnolia, Bob Segar, Brad Paisley, and Justin Moore, just to name a few. Dominic provides a relaxing, comfortable environment and allows students to learn at their own pace. His passion for music combined with his talent for teaching will truly enrich your musical journey.

Supplies needed: acoustic guitar, tuner, guitar picks, 3-ring binder, and a pencil.

Cost: $139

Dates to be scheduled with sufficient interest. Please call (336) 386-3229.

Wednesdays, 9am-12pm
Location: Pilot Center

Thursdays, 10am-1pm
Location: SCC Dobson

Beginner Bluegrass Banjo: Part 1
Have you always wanted to learn how to play the banjo? Now is your chance. Students will learn basic Scruggs style rolls, chords, and songs. By the end of the class each student should have the skills to play basic bluegrass songs.

Supplies needed: 5 string banjo, set of picks (two finger picks and one thumb pick)

Cost: $79
January 13 – March 10, T, 6pm-8pm
Location: SCC, J103

Beginner Bluegrass Banjo: Part 2
This class will build on the skills learned in Beginner Bluegrass Banjo: Part I. Students will also be introduced to new techniques: single string and melodic styles of playing.

Supplies needed: 5-string banjo, set of picks (two finger picks and one thumb pick)

Cost: $79
March 24 – May 12, T, 6pm-8pm
Location: SCC, J103

DSLR Camera: Mastering the Manual
This 8-hour/4-week mini course will help improve your skills and become more proficient with your DSLR (Digital Single-Lens Reflex) camera. From choosing the right equipment to understanding what it takes in getting the right shot, we will help increase your passion and proficiency in these two areas of capturing images. Please be aware this class is taught from a DSLR camera perspective. We ask that you be familiar with your camera and that you bring your camera’s operation manual to class. This is the first class in a series taught by Boyce Shore, master of photography.

Cost: $59

Prerequisite: DSLR Cameras Class or working knowledge of DSLR manual settings
